

Chelsey Alphonso | Software Engineer

516-315-1621 | chelseyreann@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

I'm a Software Engineer specializing in Front End Development. I bring a creative and detail-oriented approach to web design, leveraging my background in Catering & Events Management to merge event design expertise with appealing user interface. Proficient in coding fundamentals and web development technologies, I excel in creating visually appealing and user-friendly websites. With a results-driven and collaborative mindset, I am passionate about delivering exceptional web designs that captivate users and drive meaningful result

TECHNICAL SKILLS

HTML | CSS | JavaScript | Node.js | Express.js | React.js | Git | Github | MongoDB | Postman | Heroku

TECH PROJECTS

Reality TV Show Trivia | Solo Project | Front-End Developer | [Live](#) | [Github](#)

- Designed and developed a dynamic web application using vanilla JavaScript, HTML, and CSS, offering an immersive trivia experience for Reality TV show enthusiasts.
- Implemented custom animations, transitions, and event handling to enhance the user interface and create an engaging user experience.
- Conducted comprehensive testing and debugging to ensure smooth performance and cross-device compatibility, resulting in a seamless user experience and positive feedback from end-users.

Tic Tac Toe | Solo Project | Front-End Developer | [Live](#) | [Github](#)

- Designed and developed a responsive Tic Tac Toe web application using vanilla JavaScript, HTML, and CSS, showcasing my attention to detail and front-end development skills.
- Leveraged modern web technologies, such as DOM manipulation and event handling, to create an interactive and visually appealing user interface.

NYT Book API | Solo Project | Back-End Developer | [Live](#) | [Github](#)

- Made RESTful API fetch calls to an Express, MongoDB, Node.js backend handling all create, read, update, delete (CRUD) operations, and tested all backend routes during development using Postman.
 - Utilized Mongoose to define and manage data models for MongoDB collections.
-
